

Please allow K-Love to broadcast as usual. The impact on the community that I feel is a family broadcast, with no improper talk for my children. Most stations carry commercials that I end up explaining to my young children. Not so with K-Love. It is the only commercial free station in my area of Tallahassee, I am begging you as a mother not to take it away from my young family. As a taxpayer and voter who prays and puts family first, I find it hard to believe that this is even an issue that the FCC needs to worry about, with the mainstream media leaning more and more to vulgar, violent and improper talk (i.e., Howard Stern, or most morning "hosts" on the radio) I would think the public service that K-Love has committed to 24-7-365 would be the least interest of a government facility. Please do not make the station 91.6 FM a LPFM!
